

T ea party

You come across a table where some folks just had a wonderful tea party. They left you some clues as to which seat (1-4, see diagram) they were sitting in, what hat they were wearing, what teacup they used and what cake they ate (each guest ate one and only one cake).

People	Hats	Cups	Cakes
Alice	Beret	Asymmetric	Almond
Dinah	Deerstalker	Glossy	Orange
Dormouse	Newsboy	Ivory	Vanilla
Mad Hatter	Ushanka	Romantic	Yuzu

1. Alice ate the vanilla cake
2. The four guests were the one who had the almond cake, the one who wore the Ushanka, the one who used the romantic cup and the Dormouse
3. The Dormouse was not the guest with the newsboy cap nor the one with the orange cake
4. The mad hatter was seated across from the guest with the glossy cup
5. Of Dinah and the guest with the Asymmetric cup, one wore the Ushanka and the other had the orange cake
6. The guest with the deerstalker cap either had the romantic cup or was the dormouse
7. The guest with the orange cake sat across from the guest with the Ushanka
8. The guest with the glossy cup wore the beret

Seat	Person	Cake	Cup	Hat
1			Ivory	
2			Asymmetric	
3			Romantic	
4			Glossy	

Filling in the table above will lead you to the answer. You can also use the following diagram to help you solve if you would like.

Alice							
Dinah							
Dormouse							
Mad Hatter							
Beret							
Deerstalker							
Newsboy							
Ushanka							
Asymmetric							
Glossy							
Ivory							
Romantic							
Almond							
Orange							
Vanilla							
Yuzu
